

Journées du GReD

9 et 10 Février 2017

Amphi Physique
Campus des Cézeaux

Jeudi 9 Février 2017

13H00 – 13H30: Ouverture des journées scientifiques du GReD
Chantal VAURY / Joël DREVET

Session 1 (13h30-15h00)

Chairs: Cecilia Bassalart & Cyril Djari

13H30-14H00: Vincent MIROUSE

“How to make a rugby ball?”

14H00-14H30: David VOLLE

“From liver to spermatogonial stem cells.”

14H30-15H00: Thierry PELISSIER

“Identification of a novel silencing pathway in Arabidopsis”

15h00 – 15h30: PAUSE CAFÉ

Session 2 (15h30-17h30)

Chairs: Elisa Le Boiteux & Allan Fouache

15H30-16H00: Pierre VAL

"Zonation de la surrénale"

16H00-16H30: Lucas WALTZER

"EpiTET & bloody flies"

16H30-17H00: Cédric SOLER

“Body (muscle) building : strengthen your tendons!”

17H00-17H30: Aline PROBST

“Controlling histone variant deposition to modulate chromatin organization and gene expression”

Vendredi 10 Février 2017

A partir de 9h00: ACCUEIL CAFE

Session 3 (9h30-11h30)

Chairs: Quentin Laurichesse & Christelle Gross

9H30-10H00: Rachel GUITON

“T, B, NK, DC...Learning the epididymal immune alphabet.”

10H00-10H30: Claire CHAZAUD

“Salt and pepper or mosaic?”

10H30-11H00: Catherine BARRIERE

“LINE-1 chimeric transcripts in gliomas”

11H00-11H30: Silvère BARON

“LXR... show must go on!”

11H30 : Concours photo

Chair: Laura Bousset

Photo de Groupe

12H00-13H15: DEJEUNER

Session 4 (13h15-15h15)

Chairs: Jil Cercy & Marilyne Lavergne

13H15-14H30 : Présentation administrative du GReD (Franck Teillet)

Présentation Plateaux techniques (T. Jagla, C. Vachias, P. Pouchin, C.Soubeyrand-Damon, A. Martinez, I. Vaillant, J. Verbeke).

Chairs: Nolwenn Mouniée & Colin Niarfeix

14H30-15H15: Ma vie au GReD en 180s ou presque

"Los Embryos", "Homo Thesardus", "Brainstorming", "La team Ratatouille", "Yo Plays".

15h15 – 15h45: PAUSE

Session 5 (15h45-17h15)

Chairs: Allison Voisin & Amandine Rambur

15H45-16H15: Gunjita SINGH

“Role of recombination proteins in meiotic pairing and synapsis of specific chromosomal regions in Arabidopsis.”

16H15-16H45: Raïko BLONDONNET

"All the RAGE in the acute respiratory distress syndrome"

16H45-17H15: Emmanuelle THERON

"Spatio temporal repression of Transposable elements during *Drosophila* oogenesis"
